

Range update

Spring treatment

It's that time of the year again. The Range has started spring treatment and as such all the greens (including chipping area) will be out of action for a couple of weeks, your patience is appreciated. This is to ensure that the greens are always as you expect them to be - top condition.

Some good news

The grass tee boxes are starting to knit properly and should be open by the last week in September, will keep you posted.

Celebrate Heritage day with us!

Next **Tuesday 24th September** is Heritage Day and Mount Edgecombe Country Club have organised a **Fun'd Raiser Golf Day** that is sure to be a relaxed fun-filled day. The aim of the golf day is to raise funds for various golf course projects, so please support your club by entering.

Meet and greet with a smile!

Meet **Fridolin and Shanice** who are in our ball kiosk and are there to welcome you and assist you with ball sales, contracts, advice on hitting areas etc.

Fitting for approach shot magic

Better accuracy,
MORE MAGIC

Fitting you for better approach shots is more than just finding you the perfect match of lie angle, shaft length, and shaft flex. It is also about finding technology that reduces the impact of poor ball strikes.

Fitting gives you the best chance of returning the iron face back to the ball, square to the target line and with the sole square to the face. But even with the perfect fitting none of us achieve this every time. So how does technology help?

MORE CONSISTENT DISTANCE

If you make contact wide of the sweet spot, new technologies allow the face to flex as fast in those areas. That means consistent ball speeds and consistent distance. This is a critical part of approach shot accuracy.

CONSISTENT LAUNCH

Distance isn't just a factor of ball speed. Launch angle and spin need to be protected. This is very important in the area where many less skilled players make contact: below the sweet spot.

HIGHER MOI

If the club can be engineered to twist less when you strike the face wide of the sweet spot then the face will remain squarer and you'll be more accurate.

Now improve your approach

Book an assessment with us now. Let us look at your swing and technique; your irons and how the technology helps you. Let us improve the three dimensions of distance, accuracy, and stopping power. Improve these and it increases the number of magical moments on the course.

Fall in love with golf

CHILDREN LEARN AS THEY PLAY

That's why play is a
serious business.

We take that principal to heart. That's why along with skills development we want our juniors playing. Not just traditional golf, but all sorts of games that will not only develop a range of skills, but will help them fall in love with the game for a lifetime.

Sign your children up for one of our fun junior golf programmes. We'll set them on the pathway to a lifelong love affair with the game.
