## True Fit Shop now open!

Some really nice changes at the Mount Edgecombe Range this week. The True Fit Shop is now open and ready, offering a fantastic opportunity to get fitted for the brand of your choice. The True Fit system allows you to test a wide variety of head designs and shafts using Trackman with the additional advantage of being able to see the ball fly at the range.

For details on booking a fitting please contact Melville on **082 414 7836** or better still, pop in to the range and see for yourself.

---

We have also upgrade some of our mats with the new Master Fibre ones as in the picture below. The new mats use recycled rubber and are made in South Africa, so we have ticked two important boxes and are delighted with them.

---

# Why get custom fitted?

It is our belief that equipment affects motion and that when you make a balanced swing with correctly fitted clubs, the outcome is the ball flight you desire. By being fitted at the Driving Range you have the ideal scenario of changing clubs and observing the ball flight and with Trackman and True Fit these changes can then be quantified.

Let's make sure your equipment gives you that extra competitive edge you need to beat the rest of your fourball. [Contact us](#).

## Shooting between 85 & 100?

**Then you'll get the most benefit from a fitting**

Too many golfers think that a fitting is for the very best players. In fact, if you're shooting between 85 and 100, you'll see a much bigger difference to your scorecard than anyone else if you play with fitted golf clubs.

---

Clubs that fit your swing, size, athleticism, and your strength will not only minimise the impact of poor shots; they will make it easier to develop a better swing technique.

---

Yes,

**fundamentals matter**

Sure, if you're shooting north of a hundred and missing the target with a wild slice or hook, then there are swing fundamentals to develop as a priority.

### Did you buy clubs off the rack?

If you didn't have a fitting to find the clubs with the right specifications to make it easier to hit better golf shots, then come along and see us. Often it isn't a matter of buying new clubs. We can change certain aspects of your existing clubs.

# Your performance/enjoyment

There's compelling evidence that improving your putting and short game creates the quickest results on your scorecard. But does that lead to the quickest improvement in enjoyment? **You all start each hole with hope and ambition.**

*But, if hole after hole, you're*  
**experiencing a search**  
*or no shot to the green?*

*If hole after hole, you're hitting*  
**fairway after fairway**  
*how great is the game?*

It's not so much that you've found the fairway that's enjoyable (although it is). It's the fact

that you've set up an approach shot to the green and it's now all about opportunity and not recovery.

## More fairways?

We're not trying to turn most of you into a Tour Professional. We help you find ways to get more fulfillment out of your experience on the golf course. If you want to find more fairways off the tee, then we're ready and waiting.
