## Suns out, clubs out

The heat these past few weeks seems unusually hot, but the good news is that it's great for the courses and range with both looking in super shape!

---

## A gift to you

I have had some very positive comments about the download gift from last week's newsletter, if you didn't see it please take a look...

---

This free download will help you understand how to improve your game a little more and hopefully give your golf a positive boost. Please enjoy the ["A to B Programme videos"](#) as our New Year gift of golf to you, your family and friends.

**May your golf game never be the same again!**

Take a look at the improvement in Greg's swing after doing the "butterfly drill" from the download...

If you would like to work on this drill or on any other part of your game, please don't hesitate to [contact me](#) for a lesson.

## Practice makes permanent

Play your best golf this year with the Mount Edgecombe Practice Club

Make sure you get the most out of your practice time. We all know that our practice time is limited as it is. This is why you need to ensure you are practicing correctly so that you don't work in any bad habits and are able to take your best game out onto the course.

For the ladies...

The 2020 season of the practice club for ladies starts next **Tuesday 21st Jan at 9am** at the range.

The practice club meets each week for a one hour session supervised by myself to help make sure you are improving and practicing effectively.

The cost is R540/month (4 sessions) or you can come as and when it suits (R200/session). These prices includes the Pro's fees and a large bucket of range balls.

For more details, please give me a call on **076 141 7469**.

### For the all...

We will also be starting a practice club for all (men and ladies) on Wednesday evenings from 5pm to 6pm, starting **5th Feb**. The idea is to encourage and help you all to play a little better this year, and make sure you are practicing correctly and hopefully having more fun!

The costs are R540/month (4 sessions) or you can come as and when it suits at R200/session. Prices include Pro's fees and a large bucket of range balls.

For more details contact Steve on **076 141 7469**.

## Driving range deals

[Reserve yours >](#)

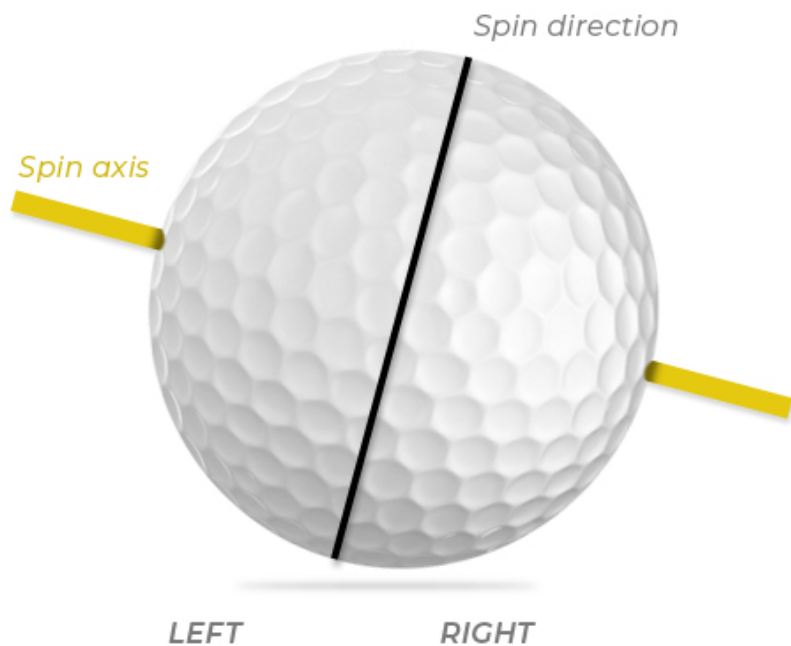

*(Please note that this offer is only available to members of the Mount Edgecombe Country Club)*

## New irons now?

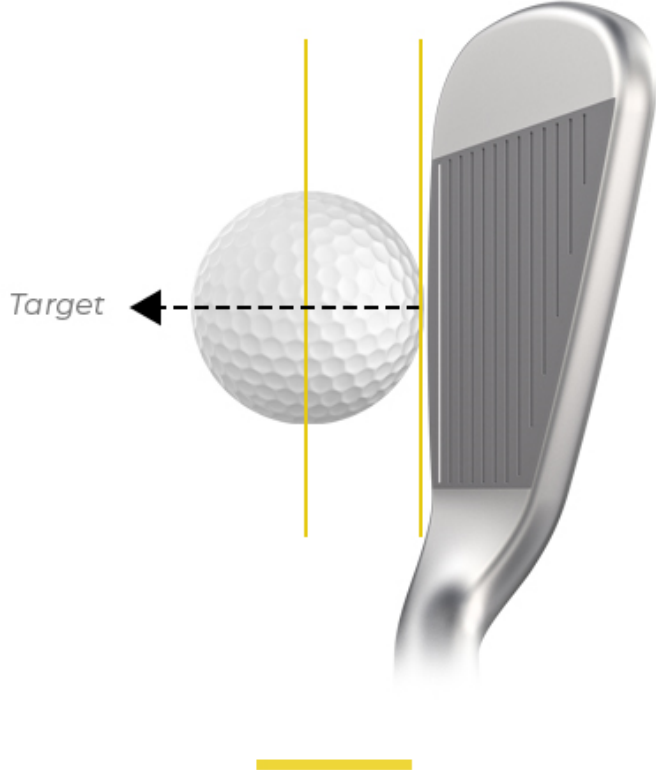

*It's not just*

**TECHNOLOGY  
THAT HELPS**

If you're over 50, while logic says age must be slowing you down, technology is changing the game for you. You can hit higher and longer iron shots with less requirement for the strength of youth. A note of caution: you do want accuracy.

*Many golfers live with relatively poor accuracy with anything over a #9 iron. They believe that it's their own swing that lets them down. But too often, it's an incorrect lie angle that causes the face angle to twist when the toe hits the turf first. This tilts the spin axis of the golf ball. The ball goes right.*

### ***YOU'VE GOT LESS THAN AN INCH TO GET THIS RIGHT***

During less than an inch of the contact zone, the sole needs to be square to the turf. A fitted iron makes that possible. And the result is a much better and much more accurate ball strike.

### **Could you be getting better?**

Don't settle. Golf has so much more to offer each of you. Technology that makes you longer, with a fitting that makes you straighter, means your best golf is ahead of you.

**Act on your feelings**

Has 'hope'  
**BEEN LOST**

*We all stand over 145-metre approach shots with hope, but that hope can be quickly traded for acceptance if shot after shot is far from perfect. And acceptance is a threat to the flame of our desire.*

If we want to sustain hope, if we want our flame of desire to burn bright, then we need to take action. We must take action.

---

### **FAN THE FLAME AND COMMIT TO ACTION**

Think about what it would take for you to experience the joy of perfection from 145-metres more frequently. What would it require from your game? Playing more regularly? Some practice? Fitted irons? Improved technique?

### **Fan the flame, take the best action**

The best starting point is an assessment. We can match your desire with a plan of action.
